

Open the door and experience our new super soft spa

Hôtel Droog wouldn't be a real hotel without a spa! Next to fashion, a restaurant, the one and only bedroom and the gallery, you can now also enjoy the luxury of wellness and body care at the Hôtel Droog spa. Here we present a select range of unique products for both men and women. The brands on sale are all pure and natural with only biological ingredients. This is the perfect way to treat your body without parabens, synthetic fragrances or genetically manipulated ingredients.

The spa is situated at Hôtel Droog, where you can treat yourself to a wellness dinner or personal advice on body and hair products. The selected range of products consists of unique brands, like the hair products by Swedish celebrity hairdressing duo Sachajuan. These are created with the Ocean Silk Technology, a formula that gives hair maximum shine, volume, stability and elasticity.

Grumpy cow, wild cow, try the uplifting bath and body oils from Cowshed to invigorate and stimulate your senses. According to the good folks at Cowshed seven types of cow resemble humans. Which kind of cow are you? Trigger your senses, enjoy the treatment and go home with perfect Christmas gifts.
